This is a guide to make your visit to Smithwick's Experience Kilkenny more accessible. This guide will explain the building and our tour, and advise where there are high sensory areas. We offer sensory kits that include ear plugs and sunglasses at our reception should you need them. You can wear your own ear defenders and sensory equipment, or exit the tour at any point. Just ask a member of staff and they can assist you in leaving or bring you to a quieter area to sit.
